

Half Term Curriculum Overview

Year 2 Autumn 2

English

In English we will be writing our own story based around the narrative of 'The True Story of The Three Little Pigs' focusing on vocabulary, adjectives and varying punctuation.

We will also be writing a wanted poster for the wolf, using persuasive language and thinking about the reader.

We will also be exploring some poetry and discussing alliteration and rhyming words.

Mathematics

In Maths this half term, we will initially be focusing on addition and subtraction. We will learn how to add and subtract numbers within 100 using a range of methods and including exchanging across a ten.

After that, we move on to explore shape, learning their properties, how to count vertices, faces and edges and making patterns.

In arithmetic, we will concentrate on times tables (2, 3, 5, 10) and mental strategies.

Science

In Science we will be learning all about Living things and their habitats. We will be exploring the difference between things that are living, dead or never been alive. We will be working scientifically by classifying these into different groups and researching the habitats to which they are most suited.

We will also be looking at food chains and identifying producers and consumers.

Homework

It is essential that your child completes all homework set. This will include:

- A maths worksheet related to that week's learning.
- A list of five spellings to learn for a test.
- Reading at least four times a week (please record in the school diary).

All homework to be set on Google Classrooms.

Geography

In our Geography lessons this half term, we will be learning all about China. This links really well to our Mandarin lessons and will build on lots that the children already know. We will learn how to draw and label maps with a key, locate major cities and learn all about different aspects of Chinese culture and society.

Computing

In Computing we are learning about Digital Media. This includes taking photographs and videos of the school buildings. Then using digital media to create blog posts and leaflets.

Art

In Art we will be learning basic skills that will help us in future art based projects. We will be learning all about the artist Rachael Whiteread and we will use clay to make our own sculptures and tiles.

PE

We will be learning a variety of yoga poses which will test children's balance and stretching. These poses will be built into a routine to be rehearsed and performed.

RE

We will be learning about different types of celebrations from across various religions such as Christmas and Hannukah. We will also listen to various stories which have a moral.

Music

In Music, we are learning to sing a variety of songs for our Christmas nativity. We will listen to the beat and tunes of different songs and discuss the instruments we can hear. We will also talk about the meaning of lyrics.

Growth Mindset

Our focus this half term is to implement our growth mindset stars in school. We will be looking for kindness, curiosity, grit and determination, optimism, teamwork and self-control.

Help needed!

If any parents/ carers would like to spare an afternoon to listen to our children read, please contact the Office or let your child's teacher know.

Thank you, Mrs Lefevre and Miss Ridley.
